Raising a Serial Killer A Father's Search for Answers In July of 1991 the country was shocked by the unfathomable crimes of serial killer Jeffrey Dahmer. But no one was more shocked than his parents. In A Father's Story, the reader is witness to the incremental unraveling of a parent's image of their child, and the "thousand different reactions" that follow. In his attempt to understand the nature of his son's psychosis, Lionel Dahmer methodically scrutinizes every possible contributing factor to his son's madness. His desperation is palpable as he searches for clues in the emotional, psychological, and genetic landscape of his son's life. Riveting and soul-wrenching, this unprecedented memoir is the confession of a father who must "confront the saddest truth a human can know-that his child has somehow crossed the line that separates the human from the monstrous."

On July 23, 1991, Milwaukee chemist Lionel Dahmer discovered - along with the rest of the world - that his son Jeffrey was a murderer who, over a period of many years, had carried out some of the most ghastly crimes ever committed. As the trial progressed, and the crimes of his son were graphically detailed, Lionel began to place himself in the dock beside his son. In the torturous weeks following Jeff's conviction, he continued his descent towards that harrowing point at which the line of his own life inevitably intersected with his son's. This book is not the story of Jeffrey Dahmer at all, but of a father who, by slow degrees, came to realize the saddest truth any parent may ever know: that following some unknowable process, his child had somewhere crossed the line that divides the human from the monstrous. It is both a touching family memoir and a haunting memoir - the account of a man who never relented in his effort to fathom the deepest quarters of his son's afflictions, even as they pointed to his own. It is a document on the nature of fatherhood, the origins of madness, and the role of kinship in the legacy of evil.

The father of serial killer Jeffrey Dahmer describes his shock at hearing the news of his son's crimes, his entry into a world of complete denial, and how, during Jeffrey's trial, he placed himself in his son's shoes. 150,000 first printing.

A must read for every family! My book helps explain the many stages, experiences, loss, strength, overcoming, and moving forward after losing our son to suicide. Through my personal day to day life, I have tried to help myself and others move forward and ease the pain of losing a loved one to suicide. I only hope after reading this book, you will have a deeper understanding of suicide and the ripple affect it has on survivors. You will find answers to questions and the feelings you are and will be experiencing. I have also tried to explain the lack of medical practice and experts in the physiological field. Everyone knows the word and meaning of suicide, but it's simply just a common word until it happens in your family.

Shortlisted for the 2009 George Ryga Award. This is the story of an average family that has never been the same . . . since its eldest child was swarmed and killed by her peers on a moonlit night, November 14, 1997 . . . It is the story of what sudden and horrific violence can do to a family, and how a family somehow remains intact in the face of such events. —from the prologue by Lynne Van Luven At the time of their 14-year-old daughter Reena's murder, Manjit and Suman Virk had already been let down by both social-services and law-enforcement authorities. They had struggled with the challenges of conflicting cultures and religions and child-rearing ideologies, and with the anguish of allegations of wrongdoing and the tarnished reputations that resulted. Now Manjit speaks for the first time about life before and after the murder of Reena, a tragedy that remains one of the most widely discussed crimes of our time. It is a book about what was and what was not, about his immigration to a new land and his attempts to raise his family in a safe and simple fashion, about the events that forever derailed those efforts.

One of the most beloved writers of our time presents seven short stories exploring the vital ties between fathers and sons. Luke sees the ghost of his father but can't figure out what Dad wants him to do. Paul takes a camping trip with the grandfather he's just met and discovers what lies behind the man's erratic behavior. Ryan has some surprising questions when he interviews his prospective stepfather for the job. In a compellingly honest collection of stories, multiple-award-winning author Avi introduces seven boys — boys with fathers at home and boys whose fathers have left, boys who spend most of their time with their grandfathers and boys who would rather spend time with anyone but the men in their lives. By turns heartbreaking, hopeful, and funny, the stories show us boys seeking acceptance, guidance, or just someone to look up to. Each one shines a different light on the question "What is the most important thing a father can do for his son?"
