The Department of Biotechnology has signed an MoU with the Ministry of Earth Sciences to set up a joint polar research centre. The collaboration will strengthen India's research in polar biology.

~~Explained: India To Add Biotechnology Museu~~ ~~le To Its Polar Science Research~~

Microbiologist Ronald Corley has gone to work every day throughout the pandemic as director of the National Emerging Infectious Diseases Laboratories. Within this secure lab facility in Boston, ...

~~Frequently asked questions about biosecure labs and the work researchers conduct~~

In 1965 Thomas Brock of Indiana University noticed "pink ... Now an essential tool in molecular biology, PCR earned inventor Kary Mullis the Nobel Prize in chemistry in 1993.

~~The Mighty Microbes of Yellowstone~~

A multidisciplinary group of researchers at Cornell turn their focus to CRISPR-and uncover the basics of CRISPR-associated transposition.

~~Jumping Through Hoops: Cryo-EM Uncovers CRISPR Transposons~~

The microbiologist who directs the National Emerging Infectious Diseases Laboratories at Boston University explains all the biosafety precautions in place that help him feel safer in the lab than out.

~~We work with dangerous pathogens in a downtown Boston biocontainment lab - here's why you can feel safe about our research~~

Two UC Davis Department of Entomology and Nematology faculty members are now full professors, and a third faculty member has achieved tenure as associate professor. Professor Chiu joined the ...

~~Three UC Davis Entomology Faculty Achieve Promotions~~

Including over 300 multiple choice questions ... or for trainees in microbiology and infectious diseases preparing for examinations. The content of this book spans the recently updated infection ...

~~Infectious Diseases, Microbiology and Virology~~

Crucially, coronaviruses that replicate inside human cells are known to encode the complete set of their genetic instructions (their genomes) in RNA chains, raising the question of whether human ...

~~New class of compounds found to block coronavirus reproduction~~

Throughout the COVID-19 pandemic, researchers at the National Emerging Infectious Disease Laboratory in downtown Boston handled numerous live virus samples with the utmost care.

~~Peek inside the Boston building hosting some of the world's most dangerous viruses~~

Just as you have a microbiome, the soil beneath your feet has one too. And promising new research suggests it may have a surprising influence on food and human wellness.

~~Cultivating Better Health~~

University of Arizona scientists did not discover alien life on one of Saturn's moons. But they didn't exactly not discover it, either.

~~New analysis by UA researchers can't quite rule out life on Saturn moon~~

"Although we are not coming out with a vote of no confidence today (Wednesday), we are not done with this," Academic Senate member Robbie Fischer, who teaches medical microbiology for SBCC's Biology ...
