Book Review: *Divided by Faith: Evangelical Religion and the Problem of Race in America*. By Michael O. Emerson and Christian Smith (reviewed by Peter DeHaan) *Divided by Faith* investigates race relations between whites and blacks in the United States. Although white evangelicals have a well-intentioned desire to end racial inequality, their efforts can—and have—unwittingly serve to do more harm than good, “ actually recreating racial divisions and inequalities, ” (p 1).

Book Review: *Divided by Faith* (reviewed by Peter DeHaan)

"*Divided by Faith* is just that--an account of the deep racial division within American religion. But more than that, it is a penetrating look at the societal and religious-based reasons for this division within the Evangelical Christian sector, and a compassionate plea on the part of the authors for Christians to engage the issue of race and to lead the country in solving this 'American Dilemma.'

Through a nationwide survey, the authors of this study conclude that US Evangelicals may actually be preserving the racial chasm, not through active racism, but because their theology hinders their ability to recognise systematic injustice.

Through a nationwide telephone survey of 2,000 people and an additional 200 face-to-face interviews, Michael O. Emerson and Christian Smith probed the grassroots of white evangelical America. They found that despite recent efforts by the movement's leaders to address the problem of racial discrimination, evangelicals themselves seem to be preserving America's racial chasm. In fact, most white evangelicals see no systematic discrimination against blacks. But the authors contend that it is not active racism that prevents evangelicals from recognizing ongoing problems in American society. Instead, it is the evangelical movement's emphasis on individualism, free will, and personal relationships that makes invisible the pervasive injustice that perpetuates racial inequality. Most racial problems, the subjects told the authors, can be solved by the repentance and conversion of the sinful individuals at fault. Combining a substantial body of evidence with sophisticated analysis and interpretation, the authors throw sharp light on the oldest American dilemma. In the end, they conclude that despite the best intentions of evangelical leaders and some positive trends, real racial reconciliation remains far over the horizon.

In recent years, the leaders of the American evangelical movement have brought their characteristic passion to the problem of race, notably in the Promise Keepers movement and in reconciliation theology. But the authors of this provocative new study reveal that despite their good intentions, evangelicals may actually be

preserving America's racial chasm. In *Divided by Faith*, Michael O. Emerson and Christian Smith probe the grassroots of white evangelical America, through a nationwide telephone survey of 2,000 people, along with 200 face-to-face interviews. The results of their research are surprising. Most white evangelicals, they learned, see no systematic discrimination against blacks; indeed, they deny the existence of any ongoing racial problem in the United States. Many of their subjects blamed the continuing talk of racial conflict on the media, unscrupulous black leaders, and the inability of African Americans to forget the past. What lies behind this perception? Evangelicals, Emerson and Smith write, are not so much actively racist as committed to a theological view of the world that makes it difficult for them to see systematic injustice. The evangelical emphasis on individualism, free will, and personal relationships makes invisible the pervasive injustice that perpetuates inequality between the races. Most racial problems, they told the authors, can be solved by the repentance and conversion of the sinful individuals at fault. Combining a substantial body of evidence with sophisticated analysis and interpretation, Emerson and Smith throw sharp light on the oldest American dilemma. Despite the best intentions of evangelical leaders and some positive trends, the authors conclude that real racial reconciliation remains far over the horizon.

The essays in *Christians and the Color Line* complicate the research findings of Emerson and Smith's *Divided by Faith* (2000) and explore new areas of research that have opened in the years since its publication.

Mark Noll has written a major indictment of American evangelicalism. Reading this book, one wonders if the evangelical movement has pandered so much to American culture and tried to be so popular only to lose not only its mind but its soul as well. For evangelical pastors and parishioners alike, this is a must read!

Passing the Plate shows that few American Christians donate generously to religious and charitable causes. This eye-opening book explores the reasons behind such ungenerous giving, the potential world-changing benefits of greater financial giving, and what can be done to improve matters. By illuminating the social and psychological forces that shape charitable giving, Passing the Plate is sure to spark a much-needed debate on a critical issue.

The Great and Holy War offers the first look at how religion created and prolonged the First World War, and the lasting impact it had on Christianity and world religions more extensively in the century that followed. The war was fought by the world's leading Christian nations, who presented the conflict as a holy war. A steady stream of patriotic and militaristic rhetoric was served to an unprecedented audience, using language that spoke of holy war and crusade, of apocalypse and Armageddon. But this rhetoric was not mere state propaganda. Philip Jenkins reveals how the widespread belief in angels, apparitions, and the supernatural, was a driving force throughout the war and shaped all three of the Abrahamic religions - Christianity, Judaism, and Islam - paving the way for modern views of religion and violence. The disappointed hopes and moral compromises that followed the war also shaped the political climate of the rest of the century, giving rise to such phenomena as Nazism, totalitarianism, and communism. Connecting remarkable incidents and characters - from Karl Barth to Carl Jung, the Christmas Truce to the Armenian Genocide - Jenkins creates a powerful and persuasive narrative that brings together global politics, history, and spiritual crisis. We cannot understand our present religious, political, and cultural climate without understanding the dramatic changes initiated by the First World War. The war created the world's religious map as we know it today.

Conventional wisdom holds that Christians, as members of a “ universal ” religion, all believe more or less the same things when it comes to their faith. Yet black and white Christians differ in significant ways, from their frequency of praying or attending services to whether they regularly read the Bible or believe in Heaven or Hell. In this engaging and accessible sociological study of white and black Christian beliefs, Jason E. Shelton and Michael O. Emerson push beyond establishing that there are racial differences in belief and practice among members of American Protestantism to explore why those differences exist. Drawing on the most comprehensive and systematic empirical analysis of African American religious actions and beliefs to date, they delineate five building blocks of black Protestant faith which have emerged from the particular dynamics of American race relations. Shelton and Emerson find that America ’ s history of racial oppression has had a deep and fundamental effect on the religious beliefs and practices of blacks and whites across America.
