actively searching for Callie. A race who could destroy Earth if they get their hands on her. Callie's never seen one thing to suggest there's any truth to her mom's insane ramblings, and at the age of eighteen now, she's grown numb to her reality - she's never going to have a normal life. That is, until they move to New Orleans. The moment Callie steps foot into the Quarter, hears the jazz music, feels the soul of the city, the cold shell she's built to protect herself starts to thaw. Then they come for her. Turns out her mom's stories are quite real, and whatever happens, Callie's empty world will never be the same again.

This set includes all four books in the Secret Keepers series. Ready to break the rules? Emma, Callie, Maya, and Avalon have a few things in common: 1. They're all part of a secret society that exists within the human world. 2. They're big fans of Converse, great food, and sarcasm. 3. They're about to find themselves co-existing alongside some of the most alpha, frustrating, gorgeous men in both worlds. Yeah, that's right. Two worlds. Two worlds that might end if someone isn't ready to break the rules. Lucky these four have never been a huge fan of rules, and together with the overlords, they're going to figure out how to save everyone. Or die trying. \*\*This paranormal romance series is over 350k words, filled with strong, sarcastic women and alpha men. \*\*

She's my last chance. Those four words echo in Violet Spencer's mind, tugging at her curiosity even as rage builds within her. Arbon Academy was supposed to be a bright new start. An opportunity for greatness, and something an orphan girl could only dream of. For a while there, it seemed to be exactly that. But Violet's bright future is suddenly looking dim. Arbon Academy

and Prince Alex are nothing but a facade. A trap. In a sinister world of ballgowns and backstabbing, of perfumes and politics, of indulgent parties and illegal sword fights, Violet now faces the biggest challenge of all. Recovering her shattered heart from the prince who crushed it. Supported by her new friends, Violet wants to make Alex feel the pain of his betrayal. Prince Rafe wants nothing more than to help make that happen, but things aren't always so straightforward. Don't break tradition. Don't let them know you know. Don't lose your heart... again. These rules will keep Violet alive. But at what cost?

Jacob Compass is stuck in the human world, navigating a peaceful treaty so that supernaturals are not exposed. Justice Winter reluctantly finds herself helping him with this task, all the while dreaming about punching him in his perfect, smug face. Suffice it to say, their coexistence is a challenge in many ways. Turns out, though, that during this battle against an enemy that they can't just kill and get rid of--annoying as it may be--they learn that they have more in common than just their fey race. More than the fact that both of them find joy in the fire element. There's something deeper that exists in their souls, and maybe, it might just take the end of the world for them to figure out what it is. \*This is the final in the Supernatural Prison series. Full length urban fantasy/paranormal romance.

Tyson Compass, as one of the famed Compass quads, is not a wizard used to living with regrets. Except for one: Grace Carter. Grace is a healer witch he rejected many years ago. After completely disappearing from his life, she has returned, and turned his world upside down. The attraction between them flares strongly, but she has not forgotten or forgiven his

callous rebuff when they were teens. Tyson does everything he can to prove he will never hurt her again, and just when he thinks there might be a chance for them, she has to leave again. She makes him promise not to follow her - a promise he honors for as long as he can. But after almost two months with no word, he's done waiting. He's going to find his girl. With a little help from his brothers, he tracks her down, only to find Grace betrayed by her family ... tortured ... hurt. His rage knows no bounds. He will do everything he can to bring her family to justice, to find out why they turned on her. By unlocking these secrets, though, he will discover that Grace is so much more than just a healer witch. She holds a secret that could save the world of Faerie. Or destroy it.

Willa Knight: Dweller? Sol? Accidental evolutionary hiccup? Willa has never been a particularly useful dweller: she isn't very good at chores, she isn't very good at worshipping, she isn't very good at not having opinions, and she isn't very good with rules-but none of that matters anymore. The rules are changing. The dwellers are trying to make their own way in the world, and Willa can't seem to help getting tangled up in their plans. Luckily, she has the Abcurse brothers to help her out-until she doesn't, and suddenly she's alone again in a world on the brink of chaos. With the Abcurses gone, she'll have to rely on her wits, and her sister Emmy, to stay under the radar and survive. Because someone wants her dead. But, really, what else is new? This is a full novel, 90,000 words. Book 3 of 5 in the Curse of the Gods Series

Year Three at the Academy. The year of Aqua. Maddison has been fighting the gods from the first moment she found out they existed. Those arrogant and power hungry deities have a plan

... a plan that includes destroying everything she holds dear, and she fears that one day soon, they're going to succeed. When new information is dropped in her lap, a way to end the gods once and for all, Maddison jumps at the chance. That's until she finds out that the path to her prize is through a maze of challenges that have stumped all who've attempted them before. Luckily she won't go alone. She's been recruited into a girl gang, and with Jessa, Mischa, and Josephina by her side, they might actually have a shot at succeeding. Of course, they didn't factor in on their mates storming the keep to track them down. Dragon shifters, Atlantean gods, and a chance to find the ultimate weapon. Year of aqua ... bring it on.

Maddison James is about to discover some truths about the world. Firstly ... supernaturals exist. WTF? Secondly ... she is one, even though no one seems to know exactly what kind. Double WTF. Thirdly ... she's about to go back to school. Well, things just got a little more interesting. The Supernatural Academy is where shifters, vampires, magic users, and fey are educated. Where they are taught about their abilities, and how to function in the human world. Maddison already has the human part down, but this supernatural thing is an entirely new dangerous game. Example one: mean girls who can actually turn you into a frog. Example two: Asher Locke, a god at the Academy. Not literally ... well, who knows for sure. He certainly acts the part, as do all of his minions who worship him. Asher drives her crazy, because apparently gorgeous and arrogant is her thing. Sparks fly between them, and the more they're thrown together, the more Asher is determined to figure out what's been blocking her abilities. Until the moment the truth is revealed, and they find out nothing in this supernatural world is what they thought. Including each other. Supernatural Academy is 105k words, full length urban fantasy
