Engineering

production engineering, and is an indispensable reference for

professional

industrial

engineers and

managers. In his

outstanding book,

Professor Katsundo

Hitomi integrates

three key themes

into the text: \*

manufacturing

Read PDF

Industrial

technology\*

production

management \*

industrial

economics

Manufacturing

technology is

concerned with the

flow of materials

from the

acquisition of raw

materials, through

conversion in the

workshop to the

Read PDF

Industrial

shipping of finished goods to the customer.

Production

management deals with the flow of information, by which the flow of

materials is

managed efficiently, through planning and control techniques.

Industrial

Read PDF

Industrial

Engineering focuses on the flow of production costs, aiming to minimise these to facilitate competitive pricing. Professor Hitomi argues that the fundamental purpose of manufacturing is to create tangible goods, and it has a tradition dating
