~~CONCEPTS OF POLITICAL SCIENCE~~

Political economy is a social science that studies production, trade, and their relationship with the law and the government. It is the study of how economic theories affect different socio-economic systems such as socialism and communism, along with the creation and implementation of public policy.

Political science, the systematic study of governance by the application of empirical and generally scientific methods of analysis. As traditionally defined and studied, political science examines the state and its organs and institutions. The contemporary discipline, however, is considerably broader than this, encompassing studies of all the societal, cultural, and psychological factors that ...
