barriers can develop. Therefore in Heidelberg the physics faculty has offered to physics beginners, since many years during the two weeks prior to the start of the first lectures, a crash course in form of an all-day block course. I have given this course several times since 84/85, with listeners also from other natural sciences and mathematics ...

Basic Probability. All of the ideas and concepts of AP Physics 1 are a prerequisite for AP Physics 2. You don't need to know every math idea in algebra and trigonometry, and you can learn a lot of it along the way, but the more math that's foreign to you the likelier it is that physics might look like mathematical witchcraft.
