Excerpt from Proceedings of the Canadian Institute, Toronto, 1884, Vol. 1: Being a Continuation of "the Canadian Journal, of Science, Literature and History" The application of an approximately correct reduction to baro metric readings, taken at various levels, in order to reduce them to what they would have been at one specified level, is absolutely necessary for their intercomparison. In the following paper several formulae which have been employed for this purpose are examined; and tables are appended by means of which, with very little calcu lotion, a suficiently correct reduction may be obtained, and which are, moreover, peculiarly adapted to the computation of tables of reduction for individual stations. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
