<p>The Art and Soul of Dune by Tanya Lapointe   Waterstones Humanity (and thus the claim to moral consideration) is reduced to the possession of a soul. Proper humans are souls that have bodies; clones simply are their bodies. The soul is a capacity for creative imagination, and this allows for the production of art. But the understanding of art is highly individualistic and intuitive. It is merely the production of beauty. Art is not allowed any communal significance, and it is stripped from its history and cultural development.</p>

I had always been the invisible art student in high school. Passed by. Glossed over. Unnoticed. Now I was Aria Watson...that girl. After one bad decision, and being labeled a slut, I was no longer unseen. I was the whore. The ignoramus. The tramp. I would never be invisible again. Particularly to Levi Myers. He was the odd boy with the beautiful soul who accepted and understood the broken girl inside me. Falling in love wasn't the plan. But how could I resist his promises of hope? Of forgiveness? Of a future I had stopped dreaming of? We were shattered. We were scarred. We were something strange and beautiful. We were two lost souls holding on to the only thing that could keep us together. Each other.

One of our foremost female artists conducts us on a visionary journey into the heart of the creative process At a time when the art world is dominated by trendy egotists and art itself is marketed like toothpaste, Audrey Flack is both an anachronism and a revolutionary: a photorealist painter and sculptor who eschews glamour and who clings to a vision of art as a form of shamanism—a means of self-transcendence whose ultimate aim is the healing of the planet. In this provocative book, Flack shows how the transcendence occurs, in the art of looking as well as in the moment of creation. With its wonderfully acute critiques of artists from Tintoretto to Jackson Pollock and its insistence on reforming the links between the artist and larger world, Art and Soul is a brave, nourishing book that will inspire not only visual artists but anyone who has chosen the creative path.

Art & Soul is a large-format glossy coffee-table book, featuring intimate portraits of celebrities from the entertainment industry including TV, music, film and stage. The stunning images, shot by Pulitzer prize-winning photographer Brian Smith, are accompanied by personal testimonials from each artist expressing the importance of the arts in our culture and the positive impact it has on our lives. The notes - in each artist's own handwriting - range from whimsical to weighty, but all offer insight into the individual's background and how their lives were shaped by art. The book also contains a foreword by a celebrated public figure involved in this cause. Celebrities photographed for the book include such luminaries as: Adrien Brody, Zooey Deschanel, Adrian Grenier, Anne Hathaway, Samuel L. Jackson, Joe Mantegna, Amanda Peet, John Turturro, Kerry Washington and many more. The book is created in partnership with the Creative Coalition, the premier public advocacy charity, founded by prominent figures in the entertainment industry. It is an important part of a campaign to focus national attention on the need to ensure that arts in America thrive and flourish. A terrific gift, Art & Soul also helps to support the arts, inspiring future generations of creative artists and improving our lives.

A little over a decade ago, Baron Baptiste published his seminal book, Journey into Power. The first of its kind, it introduced the world to Baptiste Yoga, his signature method that marries a lifetime of studying with some of the world ' s most renowned yoga masters with his uniquely powerful approach to inner and outer transformation. Since then, yoga has steadily moved into the mainstream in our culture, and Baron ' s unique contribution has played a key role. As millions of participants incorporate yoga into their daily lives, Baron ' s teachings have evolved to bring them even deeper into their own transformative possibilities. That is where the true transformation occurs, and where much rich spiritual and emotional growth is available. Readers will learn how to move through their lives with grace and flow, begin again when a situation becomes difficult, "be a yes" for their innermost desires, give up what they must, follow their intuition, and find their truth north. With his signature blend of boldness, insightfulness, humor, and warmth, Baron offers what is destined to be an instant classic in the yoga and meditation world. With Perfectly Imperfect, he proves once again to be a true yoga master for the modern world.

In the search for truth, learning becomes the key that opens up the door of contemporary knowledge. I had no interest in healthcare politics until one day a very influential person challenged me to be part of the solution rather than just complaining. This started my learning journey into the complex world of power games, political brinkmanship and who controls the money. From the government to who provides the tools to carry out care of those who 'suffer'? When there is not enough money to pay for the care, who makes the decision of who lives and who dies. The problems now being seen are only the beginning of finding solutions to care that provides hope for all those who 'suffer' from both physical and psychological pain. The more we understand, the more learning needs to take place. Not just about solving the past problems, but to get in front and be ready to solve the questions that are going to be asked in the future. Dreaming about what is possible and finding the pathway of making it happen should be the number one priority not trying to fit a healthcare damaged foot into an ill-fitting healthcare boot. Just throwing money at the problem solves nothing, how the money is used holds the answer to reducing suffering and provides hope and care to those who 'suffer' every day.

Art is a tool for living, a spiritual calling that all of us must eventually answer. Just as athletes aren't the only ones who need exercise, artists aren't the only ones who need creativity. All of us must exercise creativity on a regular basis to keep our spirit and joy from being diminished. In this age of remote controls, convenience food, and prepackaged everything, our souls are crying out for the spiritual replenishment only offered through a creative practice. Art and Soul takes readers on a year-long journey into their creative souls, offering a map for finding and expressing the art that dwells there. It encourages readers to recapture their authentic self that many abandoned long ago with their Crayola crayons. Even those who swear they can't paint, write, compose, or build can express creativity in everyday activities that revitalize and nourish their spiritual well-being. Art and Soul is divided into 52 weekly chapters, each containing an inspirational message, a creative assignment, and three or four suggestions for fun projects that encourage us to stretch our creative wings.
