The Tao of Quitting Smoking - YouTube
The Tao of quitting smoking is a reader's own self analysis of actions, thoughts, habits and transformation. What I loved about the book was the chapters, lessons and assignments were extremely short and I was able to smoke while reading the book. There are assignments that the reader must do as a smoker.

The book goes deeply into the root of a person's soul to discover WHY they allow themselves to smoke. The Tao of quitting smoking is a reader's own self analysis of actions, thoughts, habits and transformation.

Amazon.com: Customer reviews: The Tao Of Quitting Smoking
When you attempt to quit smoking, the level of nicotine begins to drop. This gives rise to symptoms like nausea, headache, anxiety and a craving for more tobacco springs up. However, these symptoms are most troublesome during the initial period and later on become manageable.

Positive Effects of Quitting Smoking!
Increasing use of cellphones has been a significant asset in helping people quit smoking. The United States Preventive Services Task Force, which issues treatment guidelines, has recommended the...

10 Scientific Quit-Smoking Tips | Live Science
The side effects of quitting smoking can be physical and psychological: bad mood, anxiety, depression, lack of concentration, gastrointestinal problems, headache, weight gain, sleep disturbances, fatigue and dullness. Quitting smoking has a series of side effects that can affect both physically and psychologically.

10 Side Effects of Quitting Smoking (and how to treat them)
Using Chantix and Behavior Modification Therapy to Quit Smoking Recently a new drug has entered the market, called Chantix. Chantix is a behaviour changing drug that works concurrently with behaviour modifying therapies so that the smoker no longer craves cigarettes and can avoid situations where they would want to smoke.

Do Side Effects of Quitting Smoking Include Rashes?
Smoking also taps into this system – via the withdrawal syndrome. When a regular smoker stops smoking, they can experience aversive withdrawal symptoms (e.g. irritability, depression, restlessness, poor concentration, increased appetite) and strong urges to smoke. Nicotine ingestion, especially via smoking, extinguishes these symptoms.

Why is it so hard to quit smoking? | The Psychologist

quit smoking
Whether you use a quit aid or go cold turkey, you're going to feel some discomfort due to nicotine withdrawal when you quit smoking. Physically, your body is reacting to the absence of not only nicotine, but all of the other chemicals in cigarettes that you've been regularly inhaling. When the supply gets cut off, you can expect to feel the effects of that.
