Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* also features important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. Finally! The world's most incredible motorcycles are given the artful representation they deserve. The motorcycle should have disappeared with the advent of the inexpensive automobile, since Henry Ford's Model T usurped the motorcycle's position as a primary form of utilitarian transportation, but a funny thing happened on the way to extinction - the motorcycle not only survived but thrived. Enough people were enamored of the thrill and beauty of the two-wheeled mechanical beast to ensure it would continue to exist indefinitely. And exist they have! Many of the motorcycles manufactured over the past century truly fit the description of "classic," and many consider these machines works of art. Written by noted motorcycle author Patrick Hahn, Classic Motorcycles presents the history of motorcycling as told through the most significant, iconic, classic motorcycles of all time, with both period photography and modern portrait photography. All the best domestic and international makes are represented here, from BMWs, Indians, and Triumphs to Vincents, Ducatis, and Harley-Davidsons - the most classic models. You'll drool over the 1933 Matchless Silver Hawk. Each motorcycle was shot in a studio setting using photographer Tom Loeser's light-painting technique. Period ads and relevant historic photos and documents are spread throughout the book to supplement the portraits of the bikes, really evoking a sense of time and place. Prepare to be in awe of the undeniably classic motorcycles in this collection. It's the only

Here is a new look at some of the finest classic bikes ever manufactured. This is an all color, hardcover book focused entirely on Triumph twins and triples.

Triumph Bonneville: 60 Years is a celebration one of motorcycling's most iconic and beloved bikes. First manufactured in Great Britain in 1959, Triumph's legendary model resonates deeply with motorcycle enthusiasts worldwide who love its style, sound, performance, and undeniable coolness. It's no surprise that Triumph was Steve McQueen's favorite ride. The Bonneville's story is one of successes and challenges as Triumph grew steadily in the post-World War II decades to become America's most successful "import" motorcycle marque. Triumph won every championship worth winning, owned the world speed record for fifteen years, and wooed Hollywood's hottest stars. Bonneville was Triumph's halo machine, one of the highest performance motorcycles of the 1960s. However, as competing marques eventually eclipsed the Bonneville in the 1970s, Triumph management struggled, leading first to bankruptcy and then to the demise of the company in 1983. Triumph was resurrected by British industrialist John Bloor in the late 1990s to become a twenty-first century global success story, which includes a revived and thoroughly retro-contemporary Bonneville range.

The remarkable history of Triumph motorcycles is retraced in this collection of the most significant machines built between 1938 and today. The original Speed Twin began the tradition and for over four decades Triumph motorcycles gained fame and rider loyalty with their exceptional performance on the street and the race track. And they found celebrity status when Marlon Brando rode a Triumph on the screen. After closing its doors in 1983, Triumph is back in production and gaining new fans.

Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGrengor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me.
